A NATURAL WATERFALL RESORT

 [aruviresorts.com](http://aruviresorts.com)

## ABOUT US

Aruvi the name signifies a spring or a forest river and the naming is very wisely done as no other resorts in munnar enjoys the advantage of having a waterfall and spring passing adjacent to the resort. Every cottage facing the water fall will be a life time dream of every human and if they are a couple, it would present them the most romantic moments of their life.

The rare glimpses of rainbow through the springs of waterfalls from your balcony are the most enchanting, memorable and refreshing. We are proud to present the only resort in India which has the closest natural waterfall attraction.
